

2018 Plant Sale Self-Service Guide, Benfield Farm

Hi Everyone, I believe I have everything set up and ready for your visit. If you've never been here or purchased plants from me, here are a few visuals, factoids, rules of the house and tips.

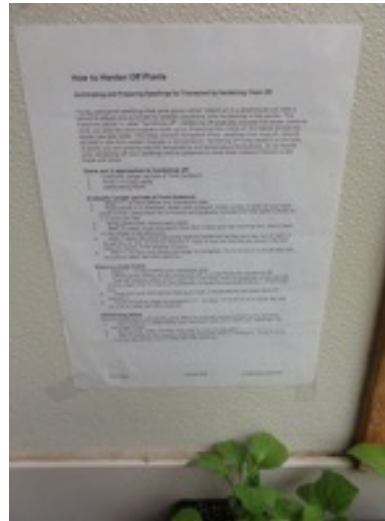

1. LOOK.

Come on in and look around. Trays are labeled. A plant description and catalogs can help in your decision-making. There are signs that say, **“For Sale”** above the sale tables and shelves. If any plants are off-limits, there will be a sign that says, **“Not For Sale”**. There's “helpful” information

scattered about.

2.PICK. ● ●

IMPORTANT - Only TRAYS are labeled and beware, old labels may still be on individual pots - ignore and/or cover them up! If a label is at the head of a row, the entire row is that variety. Pick and replace carefully.

You'll find yellow and green dots and labels on the payment table to individually label your selections.

A Plant Variety Guide is linked below, and also on my website and posted in the greenhouse.
